

NL1835

NITECORE®

High-Performance Li-ion Rechargeable Battery

3500mAh

SAFE AND SUSTAINABLE

CERTIFIED BY:

RoHS

NITECORE®

NL1835

18650 Li-Ion Battery

Internal Safety Features

1. Microporous barrier protects delicate internal components
2. Pressure relief valve activates in the event of a rapid temperature increase
3. Built-in PTC to inhibit high current surges
4. Innovative anode design with high temperature resistance

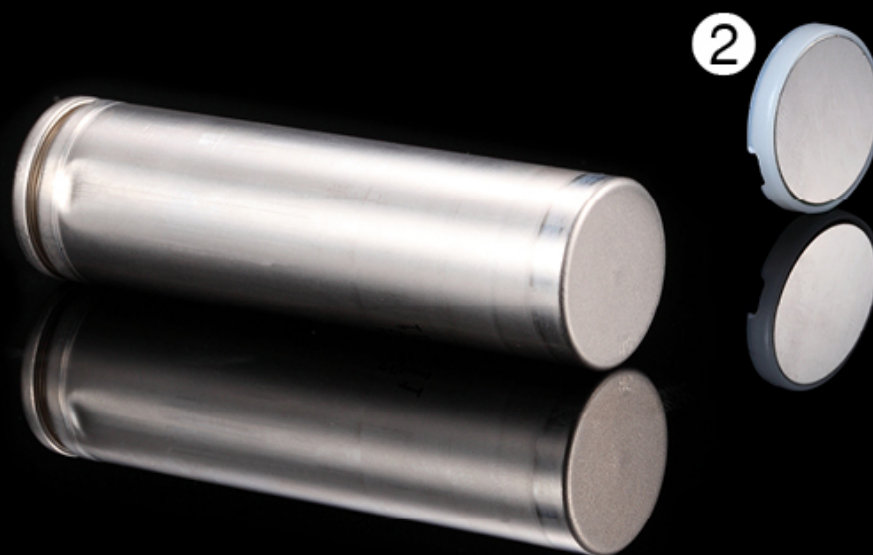

This picture is the intellectual property of Nitecore. All rights to take legal action are reserved.

External Safety Features

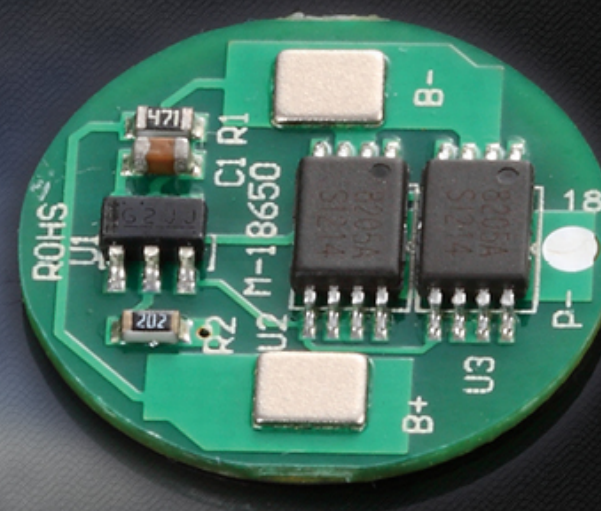

1. Equipped at both ends with a nickel-plated stainless steel protector ensuring high impact resistance, good electrical conductivity and oxidation resistance

2. Tough plastic circuit board protector
3. Coated with durable metallic film to guard against abrasion

Purpose-designed high-performance protected circuit

1. Automatically protects against overcharge, over discharge and short-circuiting
2. Utilizes a high-quality battery protection IC from Seiko Instruments Japan
3. Utilizes two high-power MOS FETs in the current regulation module for better efficiency and superior output

NITECORE
NL1835
18650 Li-Ion Battery

Low cost and environmentally friendly

A NL1835 battery can be recharged over 500 times, the equivalent of 500 pairs of CR123 batteries.

NITECORE®
NL1835
18650 Li-Ion Battery

Features:

Type: NL1835

Capacity: 3500mAh

Voltage: 3.6V

Charging Current: Maximum 2A (1A current recommended)

Weight: 1.60oz (45.6g)

Length: 2.72" (69.2mm)

Diameter: 0.72" (18.3mm)

Warranty Period: 12 months warranty from the date of purchase

⚠ Precautions:

- Never expose an 18650 battery to water or fire.
- When charging or using batteries ensure the positive and negative ends correspond with the positive (+) and negative (-) symbols.
- To extend battery life it is recommended that a NL188 is charged every three months when unused for long periods.
- Keep out of the reach of children.
