

NITECORE®

NL1835R

Micro-USB Rechargeable
Li-ion Battery

- ✓ Integrated Micro-USB Charging Port
- ✓ Internal Safety Features
- ✓ Certified by International Standards

Internal Safety Features

- 1** Pressure relief valve protection
Activates in the event of a rapid temperature increase
- 2** Microporous barrier protects delicate internal components
- 3** Integrated smart charging circuitry in the anode
Protects against overcharge, over discharge and short-circuit
- 4** Battery chip with triple protection
- 5** Built-in PTC inhibiting high current surges

Integrated high performance protected circuit

1. Automatically protects against overcharge, over discharge and short-circuit
2. Utilizes a high quality battery protection IC
3. Utilizes high power MOS FETs in the current regulation module for better efficiency and superior output

External Safety Features

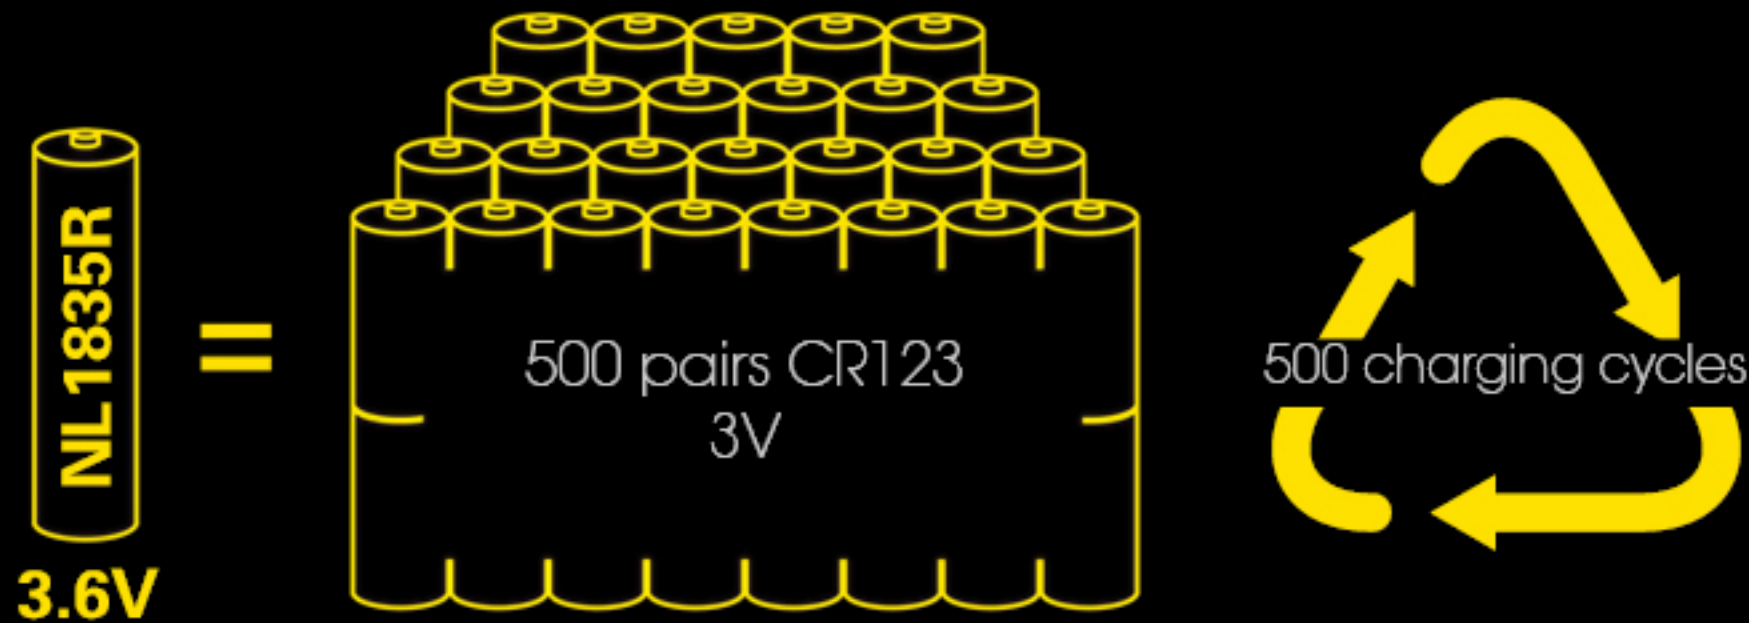

1. Equipped with nickel-plated stainless steel protectors ensuring high impact resistance, good electrical conductivity and oxidation resistance. High strength plastic wrapper for preventing tear and wear.
2. Fully covered by durable metallic wrapper to guard against abrasion.

NITECORE®

NL1835R Micro-USB Rechargeable Li-ion Battery

Low Cost and Environmentally Friendly

An NL1835R battery can be recharged over 500 times,
the equivalent of 500 pairs of CR123 batteries.

Features

Model: NL1835R

Capacity: 3500mAh

Voltage: 3.6V

Max Continuous Discharge: 5000mA

Weight: 1.76oz (49.8g)

Length: 2.76" (70±0.3mm)

Diameter: 0.73" (18.5±0.2mm)

Warranty Period: 12 months warranty from the date of purchase

⚠ Precautions:

- Never expose an 18650 battery to water or fire
- When charging or using batteries ensure the positive and negative ends correspond with the positive (+) and negative (-) symbols.
- To extend battery life it is recommended that a NL1835R is charged every three months when unused for long periods.
- Keep out of the reach of children.
