LR10 SPEC.

	HIGH	MID	LOW	CAUTION LIGHT	SOS	BEACON
Output	250 Lumens	65 Lumens	8 Lumens	250 Lumens	250 Lumens	250 Lumens
Runtime	*1h	5h 15 min	38 h	/	/	/
Beam Diameter	24 m	12 m	3.4 m	/	/	/
Beam Intensity	38 cd	9 cd	0.75 cd	/	/	/
Impact Resistance	1m					
Waterproof	IP66					

NOTE: The stated data has been measured by using a built-in Li-ionbattery (3.7V 1200mAh) under laboratory conditions. End-user results mayvary due to individual usage habits and environmental conditions.

* The runtime for HIGH mode is the testing result before starting temperature regulation.

LR10

Rechargeable
Pocket Camping Lantern

Features

- Rechargeable pocket camping lantern
- Utilizes 9 high CRI LEDs (CRI≥90, temperature color of 4500k) to emit maximum output of 250 lumens
- Built-in 1200mAh Li-ion battery
- Integrated intelligent charging circuit for Micro-USB charging
- A single switch controls 3 brightness levels and 3 special modes
- Takes advantages of highly translucent PC diffuser, allowing all light source to be well distributed
- Built-in power indicator reports remaining battery power (Patent No. ZL201220057767.4)
- Built-in power indicator doubles as a location signal
- High efficiency constant current circuit
- Magnetic base for multiple scenarios
- Made from durable PC materials
- Waterproof in accordance with IP66
- Impact resistant to 1 meter

LR10

Rechargeable
Pocket Camping Lantern

High Capacity Li-ion Battery

Built-in a 4.44 Wh Li-ion battery, the capacity is equal to 4 AAA batteries.
Maximum runtime up to 38 hours after it is fully charged.

Pocket Camping Lantern

NITECORE®

Micro-USB charging

With a micro-USB charging port, LR10 can be charged easily by various power source. It is convenient to charge it anytime and anywhere.

USB adapter

Power bank

Solar panel

NITECORE F2

NITECORE®

LR10

Rechargeable
Pocket Camping Lantern

Continuous illumination

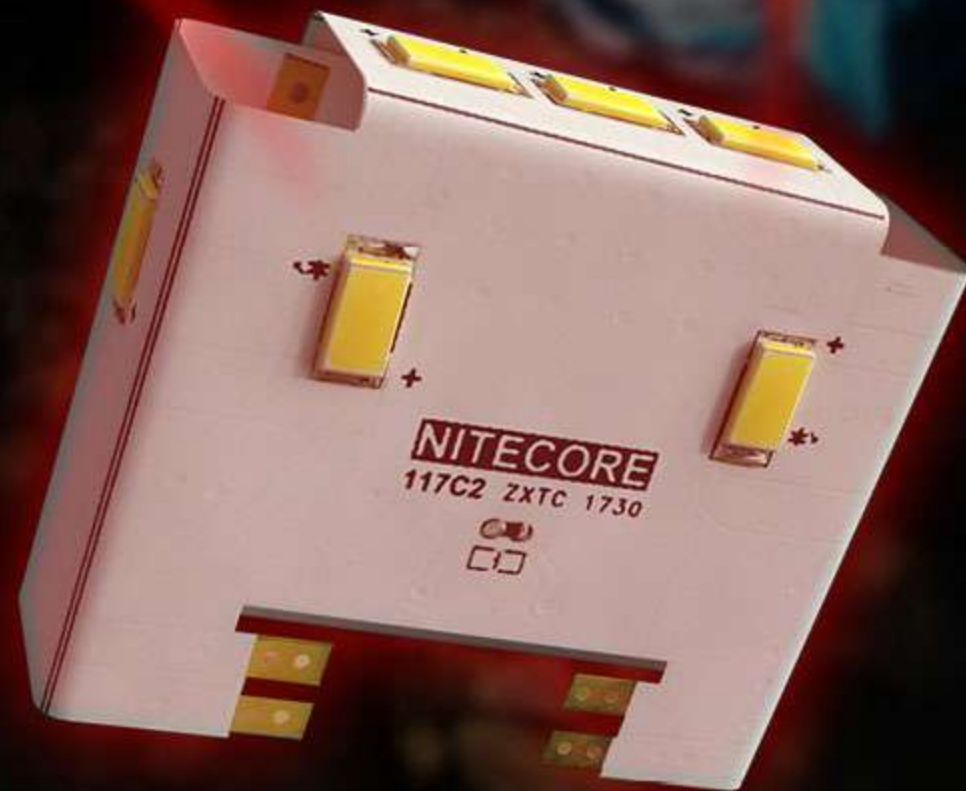

Intelligent power management system supports continuous illumination even in charging state.

LR10

Rechargeable
Pocket Camping Lantern

Built-in ultra-thin FPC (Flexible Printed Circuit) with small thermal resistance, can be bended in a narrow space while maximizing heat dissipation surface.

LR10

Rechargeable
Pocket Camping Lantern

Mini size

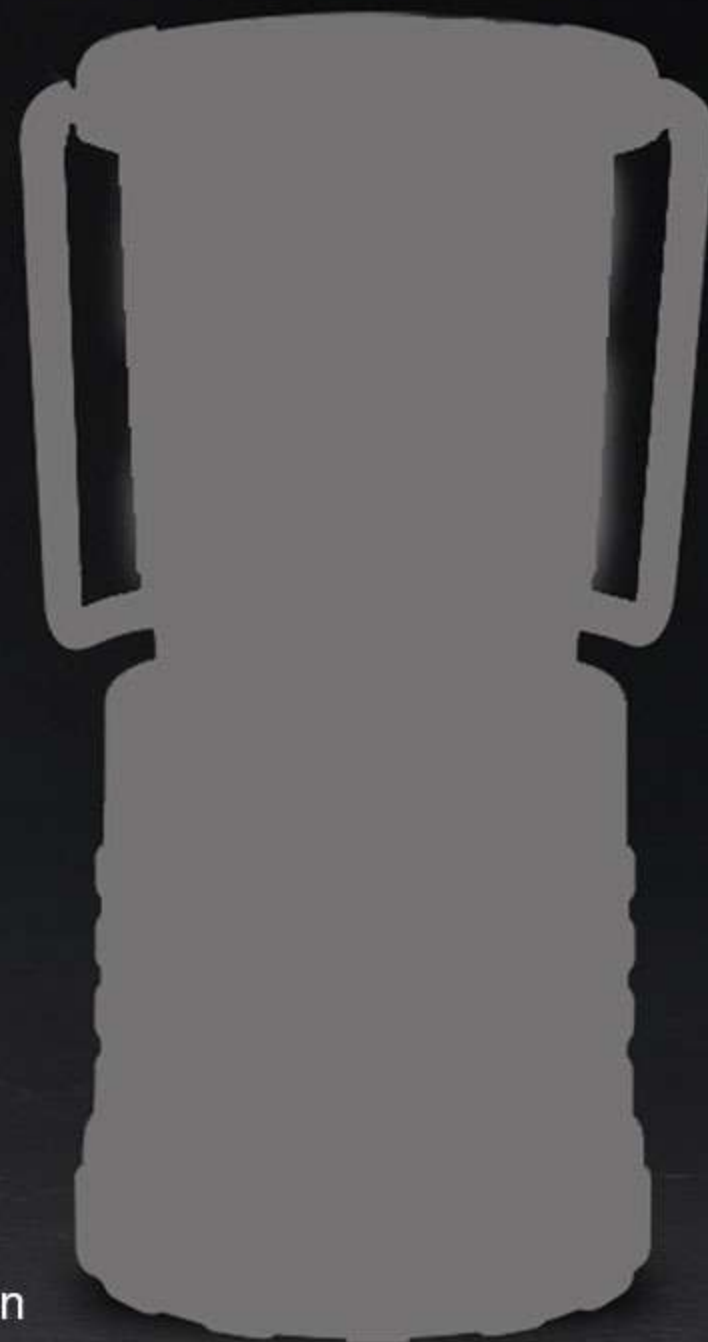

Size: 2.58"x1.97"x0.98"

Weight: 2.08oz

LR10

A Common Lantern

NITECORE®

High Colour Rendering Index Reveals the Real Colour

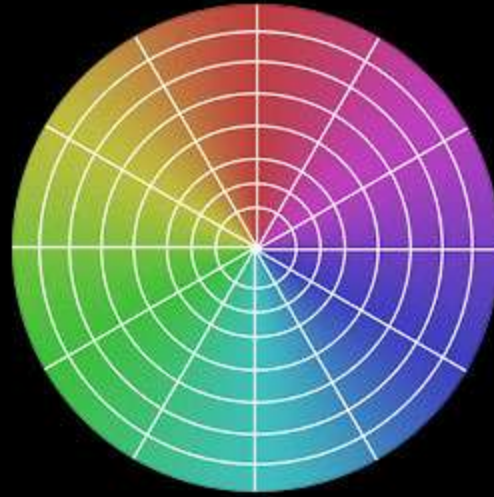

Utilizes 9 high CRI LEDs (CRI \geq 90, temperature color of 4500k) to emit maximum 250 lumens, effectively reducing eye strain while giving a vibrant view.

LR10

Rechargeable
Pocket Camping Lantern

HIGH CRI LED CRI
Value ≥ 90

REGULAR LED CRI
Value 70

Colour Rendering Index (CRI) describes how a light source makes the colour of an object appear to human eyes and how well subtle variations in colour shades are revealed. CRI is a scale from 0 to 100 indicating how accurate the light source is at rendering colour.

CRI

LR10 utilizes high CRI LEDs (≥ 90) that resembles the nature of morning sunlight, preventing eye fatigue and revealing every subtle detail of an object.

LR10

Rechargeable
Pocket Camping Lantern

Utilizes high efficient constant circuit (non-PWM) to provide constant illumination and prevent glaring while alleviating visual fatigue.

The LR10 illuminates constantly without flicker.

The common LED light with flicker.

LR10

Rechargeable
Pocket Camping Lantern

One switch for simple operation

One switch controls 3 brightness levels and 3 special functions.
Adjustable and flexible brightness suitable for different scenarios.

LR10

Rechargeable
Pocket Camping Lantern

NITECORE®

3 special modes

Caution Light

Serves as a warning & emergency light

SOS

An internationally recognized distress signal

Beacon

An ultra-efficient flashing mode to signify locations

NITECORE®

LR10

Rechargeable
Pocket Camping Lantern

ATR

With incorporated Advanced Temperature Regulation module, LR10 regulates its outputs and adapts to the ambient environment, therefore maintaining optimal performance.

LR10

Rechargeable
Pocket Camping Lantern

Ideal for multiple scenarios

Easily cope with emergency in outdoor, power failure or natural disaster.
