Care Product

* The NH2400 Li-ion battery can be used as an alternative to alkaline AA batteries.
Please replace all batteries when changing them. DO NOT mix different types/brands of batteries in the same device.

Built to Power

2400mAh

HIGH CAPACITY

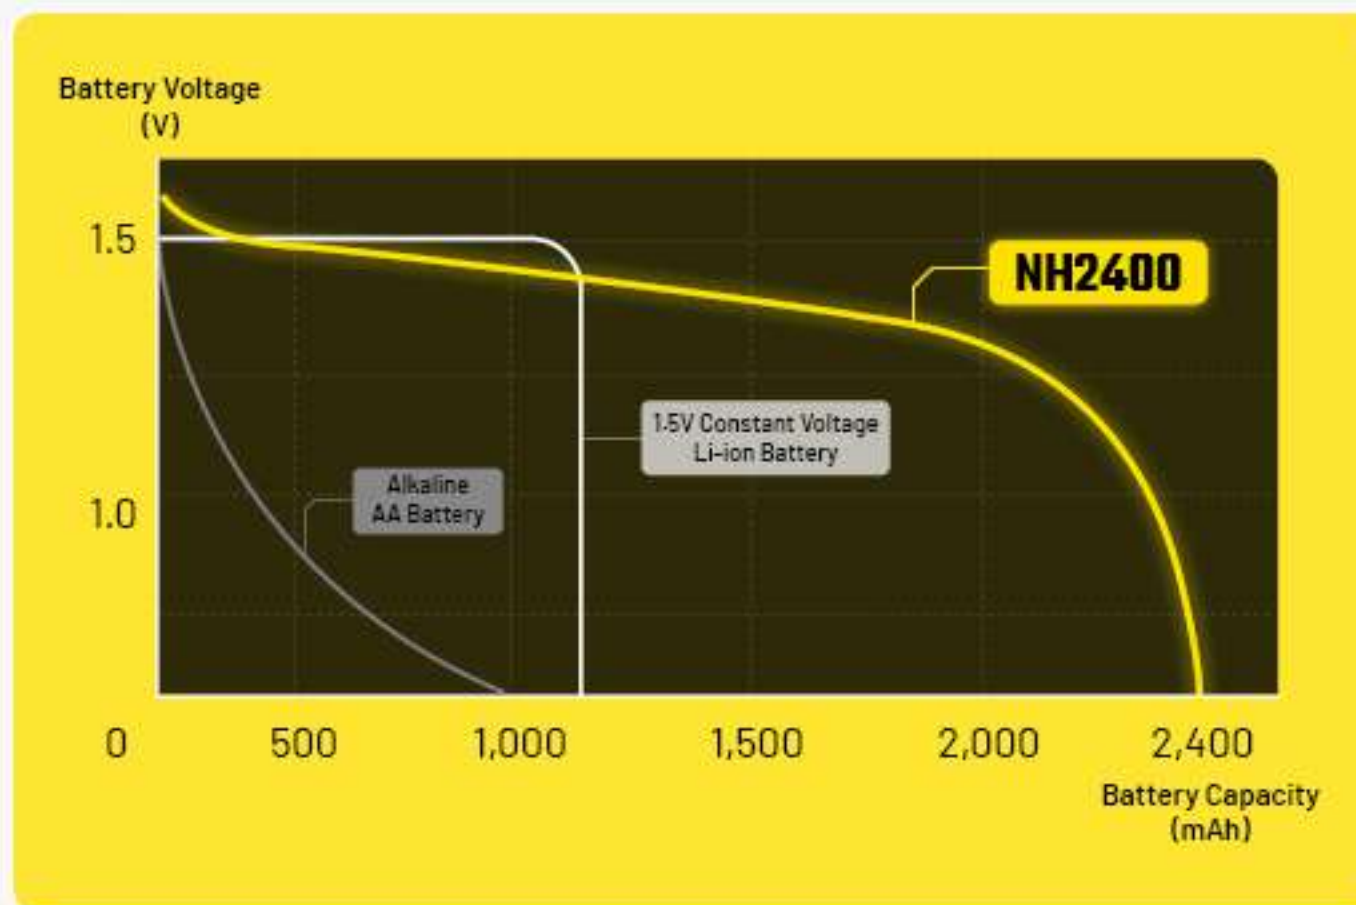

Long-lasting power to fuel your adventures

Durable and Long-Lasting

Discharge Curve Patent (PATENT PENDING)

The voltage will drop smoothly and gently as the battery discharges, providing a long-lasting and stable output. This results in a longer runtime compared to other 1.5V constant voltage Li-ion batteries and alkaline batteries on the market.

* Data from NITECORE Lab, tested under a continuous discharge operating environment at 25°C (77°F) with 500mA, is for reference only.

USB-C Rechargeable

It comes with a USB-C 4 split charging cable that can charge four batteries at the same time. It takes about 3 hours to fully charge them at the same time, which is convenient, efficient and worry-free.

* The battery can only be charged via the USB-C port.

Green and Sustainable

This rechargeable battery is mercury-free, lead-free, and cadmium-free, ensuring safe use and storage while promoting a sustainable and better future.

Safe and Reliable

Globally insured and multiple global certifications approved

Specifications

Model:	NH2400	Weight:	21g / 0.74 oz
Rated Capacity:	2,400mAh	Warranty Period:	12 months warranty from the date of purchase
Nominal Voltage:	1.5V		
Rated Energy:	3,600mWh		
Input:	USB-C: 5V=0.5A		
Diameter:	14.5mm±0.3mm / 0.57"±0.01"		
Length:	50.3mm±0.3mm / 1.98"±0.01"		

Package List

NH2400 x 4

Storage Case

USB-C 4 Split Charging Cable
