Aero Grade Titanium Alloy

Featuring its high strength, low density and strong corrosion resistance, titanium alloy is ensured with a premium quality and an excellent performance to be widely used as aerospace components.

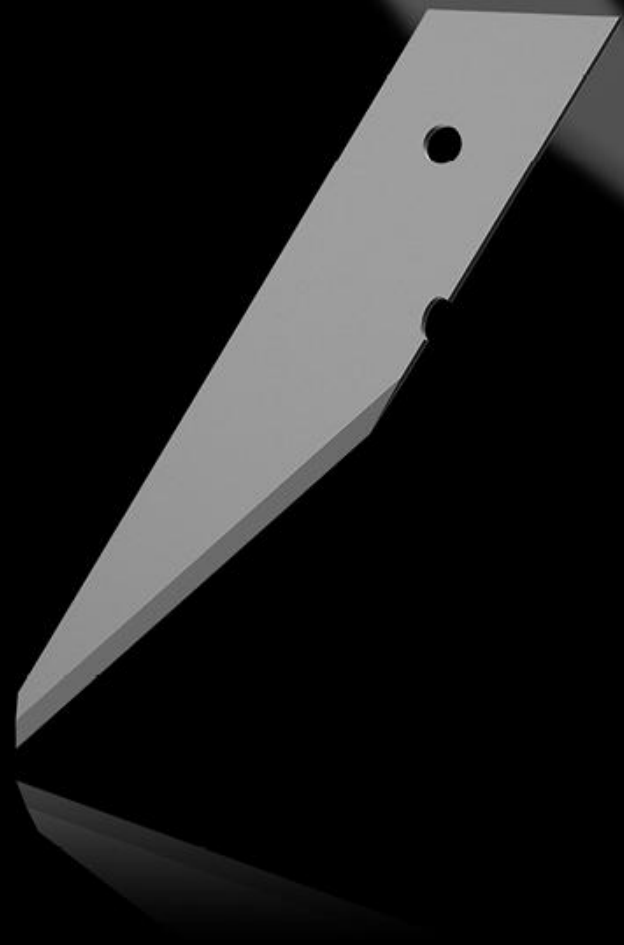

Exquisite Unibody Craftsmanship

Detail-oriented titanium machining
Strict precision to 0.001 mm

Japan-Made OLFA Blades

Type: CKB-2

As one of the worldwide famous manufacturers of cutting tools, OLFA produces their razor-sharp blades with the highest quality and the most durable materials. The easy purchase and simple operation also offer a convenient replacement of blades.

Blade Lock Design

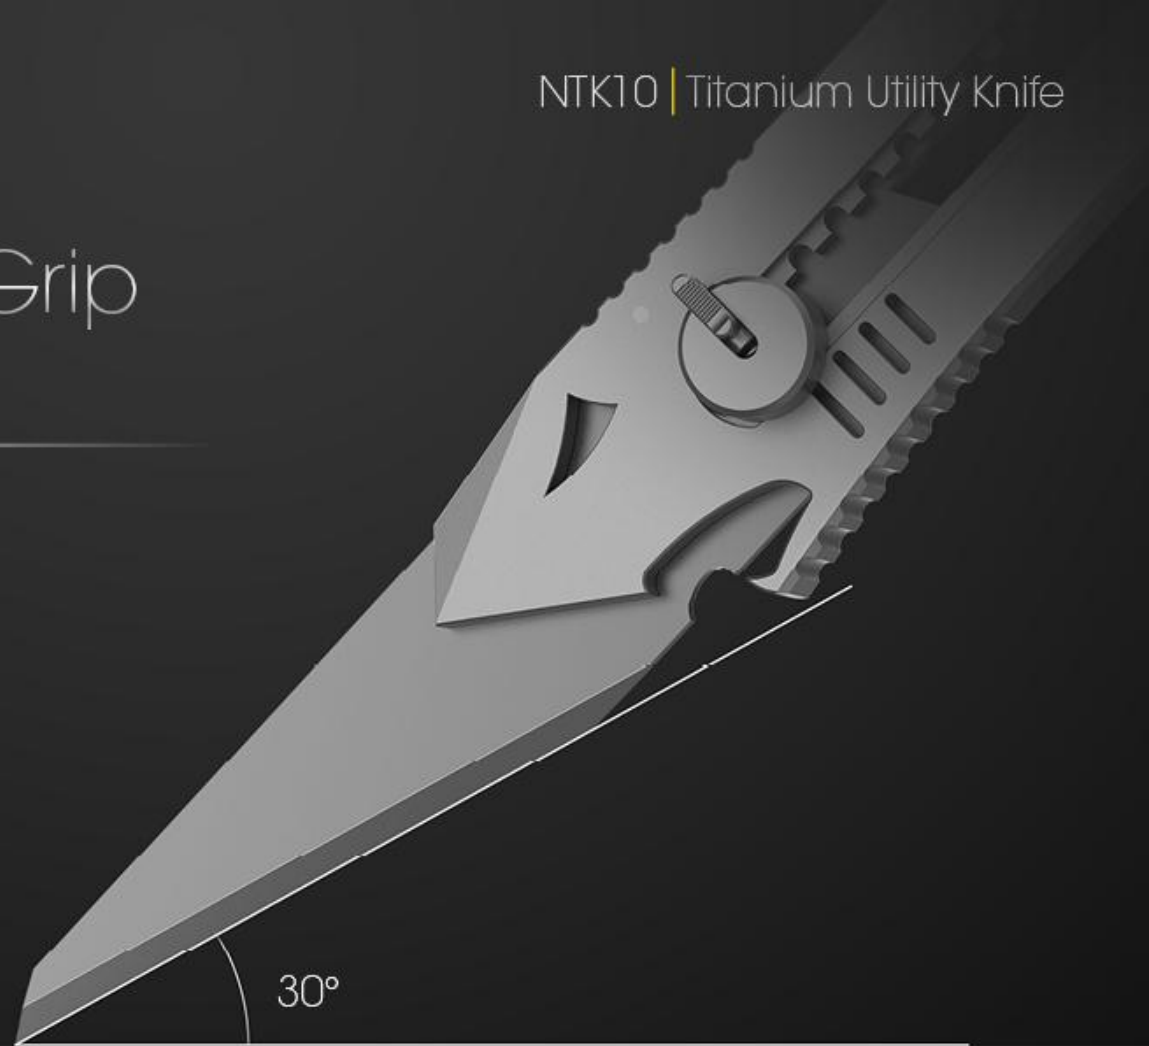

The blade lock keeps the blade away from accidentally sliding out of the body.

30-Degree Comfortable Grip and Sharp Cutting

Size: 115mm*29mm*7mm (4.53"*1.14"*0.28")

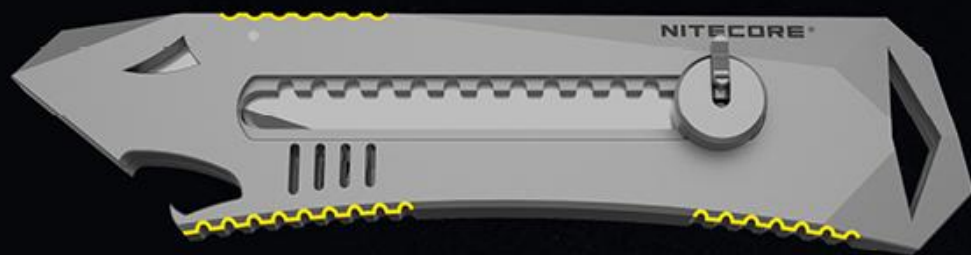

Weight: 67.4g (2.38oz) (Clip Included)

Detachable Clip
Handily applicable for drawing out
and outdoor carrying

Anti-Slide Grooved Edge

Three grooved edge areas are specially designed on contact positions with the palm to increase the friction of the grip and to prevent an accidental drop of the knife.

Glass Breaker

In case of an emergency, use the tool to break the four corners of the window glass to enable a possible means of escape.

Bottle Opener

Enjoy the extraordinary moment
after your breathtaking adventure!
